

Komal Kaur Dhillon

Aspiring Web Developer

Email: dhillonkomal59@gmail.com GitHub: <https://github.com/Komal290106>

ABOUT ME

Aspiring Web Developer with strong skills in HTML, CSS, JavaScript, React, and Tailwind. Passionate about building responsive, user-friendly web applications with clean design and modern UI trends. Experienced in developing projects like e-commerce platforms and interactive websites, with a growing foundation in UI/UX principles. Actively participating in hackathons and continuously learning to enhance technical expertise.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, Typescript

Framework and Libraries: React, Tailwind CSS, Framer Motion

Tools and Platforms: Git, GitHub, VS Code,

Specializations: Responsive Web Design, Interactive Animations, Modern Frontend Development

PROJECTS

Uamore - Luxury Perfume Ecommerce Website

- Built a modern, minimalist ecommerce site for a luxury fragrance brand using React, TypeScript, and Tailwind CSS.
- Implemented Framer Motion for smooth animations and elegant transitions.
- Designed with a soft pastel palette and luxury-focused aesthetic.
- Fully responsive across all screen sizes.

The Masala Tales - Fine Dining Restaurant Website

- Developed a React + TypeScript website for an Indian fine-dining restaurant.
- Added dynamic menus, chef specials, and customer reviews.
- Integrated Framer Motion animations for fluid interactions.
- Designed a mobile-first, elegant interface inspired by premium dining.

Nimbus Keyboards - Vapor75 Landing Page

- Created a Next.js 15 landing page with TypeScript, Tailwind CSS, and GSAP animations.
 - Integrated Three.js for 3D visuals and interactive product showcases.
 - Used Prismic Slice Machine CMS for modular content management.
 - Focused on a dark, glassy UI with premium branding and smooth transitions.
-
